P&Z Business:

Tom Walker Building Permit

Tom Walker addressed the Commission, and said that he didn't see any way he could get the sewer to empty into the Town's sewer system without pumping it. He also told us that Brigham City would allow him to continue to use their access to his property. Tim told him that we would need to have a public access to his property to even consider allowing him to build on it. The bottom line is that he has a flag lot and the Town does not allow flag lots. He was welcome to ask for a variance, that would have to go through a variance committee. Tom asked how he could present his case before a variance committee, and was told that the Town Office had the applications for a variance hearing. Tim also suggested that he visit with Brett Bennett on what he needed to put together for a hearing.

Steve Flint – Little Valley Store and RV Park Conditional Permits, non-compliance issues

No one from the Little Valley Store showed up to the meeting.
