Mantua Council Members;

We are writing concerning the cleanup ordinance being considered.

We live in a beautiful little valley. It is sad to see rotting piles of materials, inoperable cars, and old machinery behind many homes. We have large backyards, which in many cases have become private disposal areas for unused equipment. As we drive through town it is evident that such an ordinance is needed.

We support the ordinance and applaud the efforts of those who take pride in keeping Mantua a beautiful place to live.

Sincerely

Frank & Karen Fuller
